

A DAY IN THE LIFE

of an Undergraduate Student
Researcher

Q&A with a Lab Technician Zack

Quick Links

1

Mabb Lab

The goals of the Mabb Lab are to gain a basic understanding of ubiquitin pathways in the nervous system, which may ultimately allow for the design of therapeutic intervention strategies for neurological disease.

2

GSU neuroscience institute-Undergraduate Research

3

Small video about western blotting

4

Allen Institute Brain Science (mentioned in the Q&A with Zack)
